NUMOCOTTO®

BORN FROM A FIERY PASSION TO TRANSFORM

Terracotta has caught the imagination of the world since time immemorial as an earthen, warm and beautiful product; that transforms spaces like never before. The Flat Iron

Building in New York to St. Pancras Railway Station at London and countless temples in India itself, to name a few.

At Nuvocotto, we want to bring back the charm, beauty and sheer simplicity of terracotta to what we think is largely a monochrome world of design. We're proud to have reimaged countless homes, cafes and institutions all over the country.

Come fall in love, with a new avatar of Terracotta; Nuvocotto.

TURN YOUR HOME INSIDE OUT

Nuvocotto Floor Tiles instantly transform a room. Warm, earthy and comfortable colours compliment the old and the new seamlessly. From floors to pool decks and lawn exteriors, Nuvocotto floor tiles have got it covered.

WELCOME A TOUCH OF ART

Nuvocotto Jaali Tiles are a whole new level of beautiful, that have been catching on in offices and homes throughout the country. This new trend is fuelled by the amount of ways one can play with Jaali designs. Mixing and matching patterns, colours, even just how sunlight casts lovely patterns on the floor. Whether it ends up as a wall partition or just a feature wall outside your home, every one is a true masterpiece, in its own way.
